THE EVENING STAR. | \$4999999999999999999999999

WASHINGTON: TUESDAY October 7, 1890. CROSBY S. NOYES.

THE EVENING STAR has the fullest Local Circulation of any Newspaper in the World, and as an Advertising Medium is worth more than all the other papers published in Washington.

The General Conference of the Church of Tesus Christ of Latter Day Saints has heard and officially accepted as authoritative the declaration of its president forbidding in future plural marriages. This, with the supplementary action of the Mormon church, so called, re-affirming an original article of faith admitting subjection to kings, presidents, rulers and magistrates in obeying, honoring | -and sustaining the law, is accepted as settling the vexed question and really settles it if the Mormon hierarchy is sincere. The recent course of events leads to the belief that whether the Latter Day Saints are entirely in carnest or not they have about reached the end of their tether so far as polygamy is concerned. It is hardly possible for so stringent a law as the Edmunds-Tucker act against polygamy to be evaded to any considerable extent. And the church has now formally declared to its followers that their religion does not demand resistance to the law. With very unpromising cultivate, Mormondom has developed into a prosperous commonwealth. With the cradication of polygamy this people will be in a position to claim and receive respect and credit for the industry and thrift, which in spite of natural obstacles have brought material prosperity, and caused the desert to blossom.

It is interesting to know that when the new naval vessels are completed the effective force of the United States navy compared with the European navies will be as follows: United States, 42, of which five will be battle ships and ten other armored vessels; England, 76 armored, 291 unarmored; France, 57 armored, 203 unarmored; Russia, 49 armored, 119 unarmored, and Germany, 40 armored, 65 unarmored. But the comparison with these greatest powers of the world is more flattering than that with the smaller naval powers, such as Holland, Spain, Italy, Turkey, China, Sweden and Austria; for we are surpassed by them all even with the new ships added.

The fact that the French colonists in Algiers show increasing fecundity, while the French in France are steadily falling off in that respect, suggests that the mother country is overcrowded and the social system unfavorable to marriage. The cry is again raised that the Latin race is dying out, which the facts recorded in Algiers and Latin-America do not bear out. Another reason for decadence in population is the early army age and long military service exacted, which, with other causes, prevent the multiplication of the population.

In New York the estimated population between five and fourteen years of age is 84,000 greater than the scating capacity of the public schools. The great deficiency is in the primary department, where it is 67,000, whereas it is only 27,000 in the higher departments of public education. If accommodations are lacking anywhere the deficiency should be at the top and not at the bottom of the public educational course.

The Supreme Court of Minnesota has not the fear of Mr. Pullman or his porters before its eyes, and it has recently decided that the upper berth of a section on a sleeper need not be lowered in order to suffocate the passenger in the lower berth when the upper berth is not to be occupied by two dollars' worth of some other passenger.

The "kangaroo" system of voting proved a dead failure across the river yesterday .- [Cincinnati Enquirer. 1

The Australian system is successful from the democratic point of view when it produces democratic majorities and that is something there is no demand for in Kentucky. Or at least if there be a demand, the supply already far exceeds it.

Mr. John Elam of Tacoma, Wash., a former partner of the President, says he told him he would not be a candidate for renomination. This is going a good long way from home to CLARK'S.

The danger of famine from potato blight in Ircland seems to be real, although the English tory papers, as usual, denounce the American papers for saving so.

It is not a matter for surprise that Spain, as rumored, gets ready for reciprocity with this republic. It shows that Mr. Blaine knew what he was about.

Austria is respectfully invited to place a prohibitive export duty on her indignation over the McKinley bill.

It will burn fast enough, no matter how careful you are, and life will pass away more quickly than we want no matter what our condition may be. It is our duty to keep ourselves in the highest state of efficiency, and to do this we find ourselves compelled at times to use means and measures for the improvement of our physical condition. Among such means no better thing can be found than Mertz's Wine of Calisaya and Iron, a preparation which enjoys an immense sale among all classes of people and which proves its remarkable efficacy by never disappointing those who use it. It improves digestion, stimulates the liver to its proper functional activity and elevates the standard of general health. It refreshes, tones, strengthens and invigorates and is the great remedy for weakness. It is pleasant to the taste, never discolors the teeth and can be used freely at all times. 75 cts.

THE "WHEREWITHAL"

It is not our province to dictate-simply to execute. We don't propose to discuss the "pro'and cons" of the question. There are lots of you who-for reasons of your own-prefer to have your CLOAKS made to your order—In that event you will want the materials to go about it. The selection of CLOAKING is not anything you want to jump at-and you can't decide | row's special prices. in a moment from our stock either. We will show them all to you, but one beauty will follow the other in such rapid sequence you will be puzzled for once in the exercise of your own judgment. Room and light are essential comfortables to shopping-so on the second floor we have cleared a place especially for the "Wrap fabrics." Don't walk up-take the elevator. We have selected this line with great care, and you will find the proper weights and correct styles here

displayed. There are some Stripes and Plaids in Brown, Blue and Tans-52 and 54 inches wide-for \$1, that will please you. Camel's Hair Stripes and Plaids-Brown and Navy Blue combination-full 54 inches wide-\$1.50 a yard. There is a very nobby Tan and Navy Blue Check in a ough effect that we are sure you will appreciate look-

ing at whether you would care to wear it or not. It is 56 inches wide and only \$1.75 a yard. You will be impressed at once with the idea that fashion has run to stripes and checks. You could LACES. hardly suggest a better pattern and most everyone can | 16c. Oriental Laces, 2 to 6 inches wide................16c wear either one or the other becomingly. If you will call out the \$2 and \$2.50 grades you will find some 54 and 56 inch fabrics in all tones. Gems.

Plaids are probably the most extreme thing—and some very odd ones have been designed. Blue and Gray,

Dark Green and Brown are two very striking creations. We have just opened them. They will measure 56 inches across and are only \$3 a yard. ALL WOOL EVEN AT THAT. Cardinal, Brown, Navy, Green, Wine and Black

Beaver Cloth at \$4 a yard. Don't hunt for a better quality, for you will not succeed in fluding it. Match

quality, for you will not succeed in finding it. Match qualities, not prices. 56 inches wide.

Navy Blue, Gray, Tan and Black Kersey—ripe from the looms—\$4.50 a yard and 56 inches wide.

How would a Black Bouche cloth strike you? It is odd, dressy and rich. \$3 and 50 inches.

Itun your eye down this list:
Black Bedford Cord—\$4—50 inches.

Henvy—weight Black Dimeonai—\$4—54 inches,
A Natty Black Stripe—\$4—54 inches,
Black Melton—\$3.50—56 inches.
Heavy—weight Black Dimeonai—\$4.54 inches,
The lesser weight in Black—aimost any fabric that pleases your notion—Diagonais, Corkscrews, Cheviots,
We know there will be no "hitch" on the prices.
Funny how fashion vanits from the plain weaves to the rough ones—and back again in a single season—leaving its approval on both—but it does—and it is hard to tell for which it has made the most friends.

The Rough Diagonal in Blue and Black is most neat—and quite a bargain at \$3.50 a yard—56 inches wide.

The Palais Royal begs to announce that on and after tomorrow (Wednesday, October 8.) and until further notice REDUCED | PRICES WILL PREVAIL IN EVERY DE-PARTMENT. Having made enormous purchases prior to the passing of The Tariff

Bill the stocks are thrice their average size, thus making it imperative to do three times our usual business. We will do so by re duced prices, prices that will afford sensational shopping news for readers of our ad vertisements.

In requesting careful reading of the redu | ced prices quoted for tomorrow we hope to

receive your confidence. We are aware that | things are not always what they seem in an advertisement. For tomorrow among other attractions we offer the genuine Pigskin Mousquetaire Gloves for 74c., and choice of our \$6 and \$7 Jackets for \$5. A word about these two items.

ABOUT THE JACKETS

As a souvenir of the late "Opening" we offered our \$6 Jackets for \$5, and as the demand exceeded the supply we later included the \$7 Jackets at \$5. We need hardly remind you that these reductions in price left little profit in the first instance and none in the other. To our surprise we saw advertised, and doubtless you did, that others were offering better Jackets for \$4.50; at least so one would surmise when reading the advertisement. Did you see one of those \$4.50 Jackets? If you didn't we can show you one we bought for the purpose. We'll show it to you side by side with the Jackets we offer for \$5. This has been forced on us by a challenge of comparison, which we have accepted. Who will suffer by comparison we ask you to judge.

enables for the best goods. (See below.)

ABOUT THE GLOVES

We bought 1,000 dozen of these Pigskin Gloves, 200 dozen to be delivered each month, AND THEY COST WHOLESALE NINE DOL-LARS A DOZEN, less the special discount allowed us for immediate payment. Now you may have read in the advertisements of others that they sell Pigskin Gloves regularly at less price. These merchants don't sell as many gloves in a month as we do in a week. They surely can't buy to better advantage. How is it? Perhaps the best answer is that there are genuine Pigskin Gloves, gloves that will wear thrice as long as kid and always retain their shape, and that there are imitation Pigskin Gloves, made of sheepskin, that will stretch indefinitely and liable to tear every time you put them on.

In conclusion, we ask you to remember | we are not offering inferior goods at low prices. Such goods are dear. Our trade is with those who demand the best grades, who can afford to pay promptly and who appreciate the low prices our cash business

happen to be in position to make a dollar bal-28 ance one hundred cents, Others would, probably, if they could, It's their misfortune if they the can't-but should YOU shoulder it? That's what we mean when we say our \$10 overcoats tr are worth \$15. THEY ARE by comparison.

We've used this \$10 grade for illustration, but #8" it has its "plenty" of service-giving garments that you can buy-wear-and not be ashamed of. Their presence here is all the recommendation they need.

The \$15 Coats are \$5 ACTUALLY BETTER THAN OUR \$10 grade. Ten dollars better than some others by comparison. If we ever made a strong effort for the high-water mark of success it is in this grade. We've infringed on fabrics the and styles that rightfully "draw more water."

The same rule of betterment works in the \$20. \$25. \$30 and \$35 grades-only the failure of to others to compete with us leaves you to "sound the depths" on your own knowledge. To match them with tailors' work is hardly fair to the tailors.-They-by some unwritten law-take

license to charge you for their individuality.

Tisn't worth it-that's honest. Nothing can be better than perfection-and ours are its very 12" heart. Apply this logic-for logic is truth-to our SUITS. We carry the finest fabrics moulded into the richest garments-trimmed not with the flavor of elegance—that would be an insult

STREET.

SEVENTH STREET. Talking Tariff and with a reason. All imported mer-chandise is very high and going higher every day. The new tariff law is now in effect, and it

will be an impossibility to duplicate imported goods at the prices for what they are now selling. Ladies looking to their own interests will buy now. We have on hand an immense stock bought in anticipation of the raise and it will be sold right through at the old prices. The items mentioned in this advertisement are EXCEPTIONAL BARGAINS at the old prices. We cannot duplicate them at what you can now buy them. If you have an eye to saving your chance is now.

Novelties and Staples sold at the same out prices.

Trimmings.
The same with them as with anything else. Everythe trimming art is in our stock. We put the smallest possible profit on them, and it need not be a close compari-son to show you the difference in prices. We have always borne the reputation for having the best, latest and most stylish Trimmings at the very lowest prices, and we can assure our trade, (dressmakers and others) that the assortment is larger and prices even lower than ever before. We carry a stock which ranges from the lowest in price you would want to buy to the finest

We mention here two specialties in Furs. The highest prices in furs have not yet been reached, though going up every day. Capes we paid \$10 for are now worth \$15, and that is less than the average raise on all fur goods. Good skins are very scarce, and fur capes are in great demand. That's the whole cause. We bought our stock when prices were the lowest-during the summer months. You have the bonefit, as you can see by the following items. The whole stock is in the same proportion We are showing a magnificent assortment of car you may think it early for furs, but you will itively not be able to buy them at these prices lat

Coney Capes, high shoulders, long points, satin lined, shawl collar. \$4.50 each, \$6 is what they are worth.
Labrador Seal Capes, high shoulders, points, satinlined pockets, shawl, col.sr, &c. \$11.50 and \$12.50.
Cannot be duplicated again under \$16 to \$20.
These two items must give you an idea of the drift
of the stock.
